

**Specifications** **Template**

**Attributes** Real Closet shelving can be cut on the jobsite and the holes for our shelf clips are easily drilled with the Real Closet Template.

**12" Shelves** Whether the shelf is a standard 3/4" construction or the Twin Beam construction it is simple to drill the holes as marked on the template in color.

**16" Shelves** Whether the shelf is a standard 3/4" construction or the Twin Beam construction it is simple to drill the holes as marked on the template in color.

**Shoe Shelves** The Twin Beam shelf when turned upside-down becomes a Shoe Shelf and the shelf holes that are needed are clearly marked in purple.
